

Ordering and Verifying DIDs that are SMS capable

- Ordering new DIDs that are SMS capable
- Verifying your existing SIPStation DIDs are SMS capable

Ordering new DIDs that are SMS capable

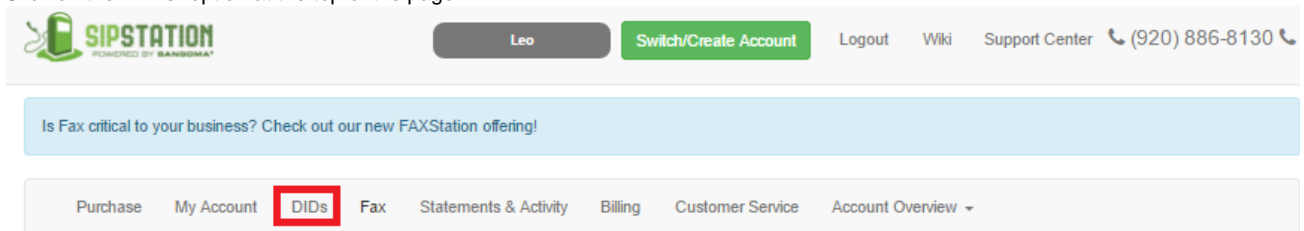

View our wiki here [Adding Services or DIDs to your Existing Account#AddingLocalDIDs](#) on how to add new DIDs that are SMS capable

Verifying your existing SIPStation DIDs are SMS capable

- Log into the SIPStation Store and then follow the instructions below, depending upon whether you are setting up a global failover or per-DID failover.

- Click on the "DIDs" option at the top of the page.

- The SMS Capable Column will show a check box next to all DIDs that are capable of SMS and blank for ones that are not.

| Master E911 | | | | |
|--------------------|--------------------------|-------------------------------------|------------------------|---------------------------|
| Master E911 Number | SMS Capable | FAX Capable | E911 Service | Failover Number |
| 647-313-0268 | <input type="checkbox"/> | <input checked="" type="checkbox"/> | Update | Configure |
