User Control Panel (UCP)

Overview

User Control Panel (UCP) is a replacement for the aging ARI module in FreePBX starting with FreePBX 12. It currently has the following modules:

- **Home**
- **Call History**
- **Conferences Module** (Only if Conference Pro is licensed and installed)
- **Fax** (Only if Fax pro is licensed and installed)
- **Presence**
- **Settings**
  - Call Forward
  - Call Waiting
  - Do Not Disturb
  - Follow Me
- **SMS**
- **Voicemail**

You create users and manage their permissions inside the User Management module in FreePBX.
