User Control Panel (UCP)

Overview

User Control Panel (UCP) is a replacement for the aging ARI module in FreePBX starting with FreePBX 12. It currently has the following modules:

- Home
- Call History
- Conferences Module (Only if Conference Pro is licensed and installed)
- Fax (Only if Fax pro is licensed and installed)
- Presence
- Settings
  - Call Forward
  - Call Waiting
  - Do Not Disturb
  - Follow Me
- SMS
- Voicemail

You create users and manage their permissions inside the User Management module in FreePBX.
