

Deleting Trunk Group

- Log into the SIPStation store at <https://sipstation.com>
- Click on the My Account tab at the top

- Click on the Trunk Groups tab

- From here we can see a list of all Trunk Groups for this location

	Trunk Group Name ▲	Master E911 ◆	Failover Number ◆	Failover FQDN/IP or Trunk Group Name ◆		
▼	Lewis home (Default)	920-222-2222 📞	920-222-2226 📞		Reset SIP Password Configure Failover Access/Notification Settings	✎
▼	Tony Test	218-249-1222 📞			Reset SIP Password Configure Failover Access/Notification Settings	✎ -

- From here you can press the Delete button next to the Trunk Group you want to delete

- The default trunk group noted above can never be deleted. Any new DIDs that are purchased will automatically route to this trunk group and if other trunk groups are deleted, their DIDs will revert to routing to this default group unless those DIDs are subsequently moved to another trunk group.
