

Change Call Recording Location

Whenever you need to store your Call Recordings in a different location rather than the standard one, there is an option under Modules /Advanced Settings/Directory Layout called "Override Call Recording Location" which allows you to define a new path.

- Directory Layout	
Asterisk AGI Dir	/var/lib/asterisk/agi-bin
Asterisk bin Dir	/var/lib/asterisk
Asterisk etc Dir	/etc/asterisk
Asterisk Log Dir	/var/log/asterisk
Asterisk Modules Dir	/usr/lib64/asterisk/modules
Asterisk Run Dir	/var/run/asterisk
Asterisk Spool Dir	/var/spool/asterisk
Browser Playback Cache Directory	/var/lib/asterisk/playback
Certificate File Location	/etc/asterisk/keys
CGI Dir	/var/www/cgi-bin
FreePBX bin Dir	/var/lib/asterisk/bin
FreePBX sbin Dir	/usr/sbin
FreePBX Web Root Dir	/var/www/html
MoH Subdirectory	moh
Override Call Recording Location	>>> HERE YOUR NEW LOCATION PATH <<<

As per field explanation: "Override the default location where asterisk will store call recordings. Be sure to set proper permissions on the directory for the asterisk user."
